“ The definition "secular" is not my definition. It's the definition of a culture that still considers faith in a god to be the default, and therefore needs to tag as "Other" anything that deviates from that default. And since we're living in a Jewish state, that default defaults (::snort::) to Judaism. I am an atheist. I am only "secular" in the same way that gay people are "sick" to homophobes. Your question is like the one of the aforementioned homophobes asking a gay person "why are you sick."##imported-begin##Yuriko##imported-end##
