“ *I have worked with Betty for several years and she was the best ! Always laughing and joking. A true professional at her job. Betty always put the needs of others before herself, especially the patients that came into the clinic. I would love talking to her because it always ended up in laughter. Betty had that way about her. She could always make you feel better after talking with her. Betty was a true joy !*

I will truly miss you Betty. But I know as sweet and kind as you were here on earth that you are standing as an angel in heaven. God bless you and your family. I will be praying for them .
