“ *Mr. Whitehead was a very kind and hard-working man. He helped me move items into my classroom my first year at North Oconee. I spoke with him many afternoons as I worked in the science labs or when I left for the day. He always checked in with me on my biggest lab days to make sure things were OK and to see if he could help in any way. My deepest sympathies to his family.*

“ David was an incredibly generous man. He spoke to all of my Human Geography classes every year about his life in agriculture, manufacturing, and the school system. Every year, a number of my students report that hearing him speak was one of the most powerful experiences of the year. He will be missed dearly at our school.
