“ I just got back from Louisiana burying my mother. I went by today to let Don know that mom had passed because he always asked about her. When he didn't answer the door and I saw the blinds were closed, the car was in the driveway and he didn't answer his phone, I suspected he may have passed away as well. Don always opened the blinds in the daytime. After searching, we discovered this obituary.

I've known Don for 34 years. He and Ms. Virginia babysat my children. We have gone to baseball games, watched the Super Bowl together, gone out to eat together, and I have worked on his house. We've sat many hours just talking about life. I'm am sorry for your loss. I'm sorry I lost a good friend.

I will call Tim Stewart's and leave my number with them to give you. Please call me when you are able.
