“ *Dr. Jones was a professor of mine at California School of Professional Psychology. Always kind and approachable, I appreciated how he took interest in his students and also the insight that he imparted.*

A strikingly handsome man, Dr. Jones served as the Department Chair for the Department of Educational Psychology at CSU East Bay in Hayward. I remember when he came into the office while on vacation to assist a group of students with a concern regarding approval to register for a required course. He arrived in his tennis attire and sat down and went to work at listening to the grievances of the students and making calls to find solutions. He had a gift for listening with intent. He was very empathetic, which students greatly appreciate.

I was deeply saddened when I learned of his passing. What a bright presence he was on this earth.
