“ Having a grandmother is a divine gift that exceeds the value of gold. Having a woman who embodies unconditional love for you and your children is a treasure that surpasses any worldly wealth. Nanny B, from the moment I met her, enveloped Kevin , myself and our 5 children in her unwavering love. She cared for them, kissed them, and loved them as if they were her own. She was my rock, my heart, and the wisdom she imparted is unparalleled. I feel privileged to be part of a family that practices unconditional love. Witnessing generations gather over the past few days has broadened my perspective. Someone who has reached the age of 96 has, in my opinion, fulfilled their life's purpose. I observed as generation after generation came through the door, sharing stories and testifying to the profound impact she had on their lives. Seeing these same ones care for her in return with Grace when she needed it all the way down to small children wiping her face to giving her water . Whether it was through her wisdom, generosity, loving hugs, or you leaving with a full belly or that once in a blue moon talking to, she touched countless lives. Some of these encounters may remain unknown, but her legacy will endure. I watched her fight with dignity until the very end. She was our foundation, our heart, and her absence will be deeply felt. Fly high, my blue-eyed angel; you are indeed a legend. Love Kevin and Tiffany Moon
