“ *With heartfelt condolences. I worked with Gina and I am going to miss her a lot. I brought my grand children there one evening and they thought she was funny because she talked about riding her motorcycle and fixing cars because she was a woman.*

“ My deepest condolence to the family. I had the privilege of working with Gina at ATT. Even after moving to a different department we still communicated via email or our internal chat system. She was a fun loving person with a caring heart. I will truly miss her.

“ I am so sorry for your loss. I had the pleasure of working with Gina for the last 3 years of my career, and she was a delight. I so enjoyed going in and working the midnight shift on occasion so that I could spend time with Gina and the other techs on that shift before she got bumped to the day shift. Once she was on the day shift, she would always stop by my office to say hello, and I made a point of going to her desk to say hello and give her a shoulder rub. I was looking forward to her visiting me in Florida the next time she came this way, and I'm truly sorry to miss that visit. She will truly be missed in this world, but she's in a better place now and at peace. May the good Lord watch over her and wrap her in his embrace.

“ Bill and I want to send our sympathy to all of Gina's family, all her beautiful children, grandchildren, to her Mother Joan and stepdad Bob, her dad Richard, to her brother Nick and Lisa, to John and Becky. Gina was the type of person that when you saw her she would come to you with her arms open and greet you with a big hug, I have fond memories when she first moved here, and later when Cheryl was about 3, we would go to garage sales. I invited her to come and eat peas and collars with us on New Years day, she said I thank you for inviting me, but I do not care for that sole food, that was funny, but years later she did com with Lisa and Nick and she did eat and she said that was pretty good after all. She will be greatly missed, there will never be another Gina.
