“ *Please accept our condolences and hope that all of Graeme's family and friends find the solace and comfort among one another needed in grieving his passing. My interaction with Graeme started many years ago going back to the NLS days and the start of the data base reporting system he created. That in itself is noteworthy enough concerning leaving a legacy, but that's just a small part of the Graeme I got to know. What stands out most to me was his patience. There's a lot of moving parts to the reporting system he created, and with that a multitude of issues that can evolve from so many different software applications it had to interface. No matter how many phone calls he'd receive, I never once heard exasperation in his voice. He always took his time and made sure you understood, and/or, he understood, what the issues was and worked through it with you. He was a true team player. On behalf of our entire team here at Alsco-Knoxville, please accept our heartfelt condolences. Warmest regards, Tony lasiello and staff.*

“ I worked with Graeme for over 5 years while I was in I.T. at AlSCO. The thing I'll always remember about him and try to emulate in my daily routine is Graeme's patience and how he always found the time to help our employees - it didn't matter if you were in Operations or upper management, Graeme would get back to you and more times than not, have the solution.

*He will be sorely missed by all of us at AlSCO and I'll especially miss his friendship and his willingness to help.*

*My heart goes out to you and your family at this difficult time. - Val Gibboney*

“ Graeme was an absolutely unique individual. He was always there to lend a helping hand, and never complained when asked to go 'above and beyond'. He repeatedly exceeded all of our expectations, and will be sorely missed by his AlSCO-Eugene 'family' members.

*Graeme may be 'gone' ... but, will never be 'forgotten'! Our deepest, and sincerest, condolences to his family and friends. Rest in Peace, friend ...*
