“ *Oh, Bright Child of Starlight
your colors fill the city!
And the sweetness of gentle
words whispered
return to those whom you’ve touched,
now and now and always.*

*Tender sister of cats and of song
and innocent nights so long,
this trick of memory
can never take you.
Time and distance cannot hide you, nor
the tickle of Love that you share,
now and now and always.*

*(I once told you that nothing real disappears.
And that what is real is love without fear.
You said I was crazy, but you’d think about it.)*

*Presence of light, Daughter of the timeless,
planets swoon at the melody of you!
There is a soft curve in the heart
of we who speak your name. And your name
sings itself beyond the words of this world.*

*Oh, Bright Child of Starlight
your colors fill the city!
The song you sing joins the song
of all who wander. The promise of
endless joy, the certainty of love returned,
the purring of every snuggle,
now and now and always.*
