“ Sending my condolences to the Davell family at the sad news of June's passing. We worked together for many years in the operating room at Northside Hospital. June was an outstanding perioperative nurse, a positive role model and a mentor to many, including me. Kind, warm, sincere, and upbeat described June. She was our expert neurosurgery clinician who obviously loved her work and imparted her knowledge to many. We enjoyed working together, perhaps because we were both Buckeyes and shared adventures from our times working at Miami Valley Hospital in Dayton, Ohio. One year when the nursing staff was providing lunch for our Northside surgical techs to celebrate "Surgical Technology Week", June shared a recipe with me for the absolute best honey mustard salad dressing that she got from her niece who worked as a chef. I still make her recipe to this day and think of June every time I make it!

“ June was one of the kindest and warmhearted nurses I ever worked with during my career at Northside Hospital. She was always ready with a smile and a helping hand. She passed on her vast knowledge about neurosurgery to many nurses and surgical technicians, including myself. Please accept my deepest sympathy. Your family will be in my prayers during this difficult time. Carol Foltz RN (Norsworthy)
