“ *Lucy was a very dear friend to my mother in law, Peaches, and I was just so glad I had a chance to know her somewhat through that relationship. I will always remember them laughing and talking together. When Peaches moved to Texas, her trips back to Georgia always included special one on one time with Lucy. She was a very special lady and will be missed. Trish I remember you very well and I am thinking of you all.*

“ While working part time at Arbor Terrace I had the privilege of getting to know Lucy and her friends, Trish and John. I always enjoyed our conversations. Lucy and I had mutual friends from Monroe and she was gracious when speaking of them. She was an extraordinary lady.##imported-begin##Andrea McWhirter##imported-end##
