“ *David, Barbie and Beth,  
You had one of the sweetest moms in the world. I considered her a good friend although I did not get to see her. I'll always remember her as quiet, reserved and always smiling. We sat at the softball games watching you girls play and her children were her life. That's what made her so happy. She loved you very much. Although she was quiet, she talked to me quite a bit. She was a sweet, loving, caring person, and a good woman and I'll never forget her and those memories. She will always be remembered by me.##imported-begin##Novella Goss##imported-end##*

“ *Barbie and Beth, I am so sorry for your loss. I remember many times spent at the softball field, your mother was always there smiling and cheering on the team with my mother. I could tell even back then that she was so proud of her children. I will continue to pray for you both and David during this difficult time. Please contact me if you need anything.##imported-begin##Teresa Goss Hutchins##imported-end##*
