“ *Carrie and I were in the MAT program at the University of Georgia. We were in many classes together and shared projects. I am shocked by his passing. I learned about this from a mutual colleague. We were the sole males in our class - so we bonded. I enjoyed his humor - his laugh was infectious. I saw a man who loved his family, as his children occasionally accompanied him and were welcomed in the classroom. He spoke of his love and concern for his children and family. My experience in this program was positively enhanced because of his presence. I was looking forward to speaking with him. I am very saddened because of this loss.*
