“ *I am another that had the pleasure of working with Nate at AT&T. He was always kind, patient, and helpful. He had a way of explaining the technical to me in a way that I could understand, which is saying A LOT! He was a great example of how we should all treat and care for each other professionally and personally.*

“ *I'm going to miss my gadget partner in crime. Nate was a strong technical person and just a great guy to know in general. He was big into researching topics, whether it was science, religion, or any number of gadgets; our conversations were always interesting and he's enlightened me on quite a few things. He may be gone in the physical, but his spirit continues on through all of us who knew and cared for him.*

“ Nate was my friend, my brother. We met in 1993 and became roommates shortly thereafter. We've cried together, we've consoled each other, we've counseled each other, we've laughed and had some great times together over the years. Nate was a true friend who loved life and his family. I will miss our long talks.
